    (If you need more space please attach further comments.)
    "First, Professor X was probably the most easily accessible professor outside of class on this campus. He really cares about student needs. Extremely nice. He would always do everything in his power to make that happen, one of the best professors I've had at OC. The sociology dept. has found a gem. DO NOT LET THIS SLIP!

16. Could the instruction of this course be made more effective? If so, how? (If you need more space please attach further comments.)
    Although I understand that this is a quantitative reasoning class the class could have been better if there was more discussion and debate.
    (maybe more group activities/peer-teach?)
